

# Parks in San Francisco CA : Asset counts and Satisfaction scores

## Parks and recreation locations San Francisco CA

A study looking at the relationship (if any) between the level of provision by the parks department of assets and the reported user satisfaction scores (not all entities are scored) Asset counts are taken with spatial bounds of park areas and normalized by the park area for a more consistent view of the level each park is provisioned by the department

Data Sources  
Assets, Park bounds, user satisfaction scores, Suburbs : San Francisco Open Data, San Francisco City and County departments [data.sfgov](https://data.sfgov.gov/)  
Roadways Water Areas : US TigerLines, US Census Bureau, US Government [census.gov/cgi-bin/geo/shapefiles/index.php](https://census.gov/cgi-bin/geo/shapefiles/index.php)

## Relationship between Park Score and Count of Assets by propertytype
